- You've had 1-2 years of Spanish courses in the past
- You're familiar with present tense, but past & future tense feel like fuzzy math

Curriculum Design

Our online courses offer the newest and greatest developments in language instruction using the highly popular 'Flipped Classroom' model and curriculum – creating a productive *student centered* approach

What We DO NOT Do

We don't spend the 90 min. or longer required class times lecturing and explaining grammar and vocabulary before students apply the new rules to often culturally-empty exercises on their own, all before heading back to take exams (why again... take exams when we could use that time practicing actually speaking?)

What We Do

Instead, we've created a dynamic online version of our professionally designed curriculum. We interactively guide students to view, listen and actively engage in a variety of lessons based on authentic materials (read on!) during that time 'out of class' / on their own. Students then participate in the weekly *LIVE* virtual classroom with their instructors and peers to practice the language in context, using high-frequency everyday language.

Course Structure

Over the 6-week course (June 11th-July 23rd), students will have the opportunity to set their own pace and timing (can we get a halle-LU-jah?!) through the weekly 'out-of-class' portion which then leads to the dynamic LIVE Online Forum led and formulated by the instructor.

Testimonials

Don't take our word for it! Hear from our students:

"Our teacher was
absolutely
wonderful!
Love her!"

Laura, (Austin, TX)

"I really liked the
online curriculum, and
thought it tapped into
reading, and listening,
and speaking in the
LIVE."

Wylyn, (San Antonio, TX)

"I would say the
community has
been even better
than some of my
classes I have had
in person! I used to
just hear bits and
pieces. Now I can
understand whole
conversations
AND actually be
able to respond."
